JAN 15 2010

(b)(3)

APPROVED FOR RELEASE☐ DATE:
06-16-2010

Mr. Kel McClanahan
National Security Counselors
1200 South Courthouse Road, Suite 124
Arlington, VA 22204

Reference: F-2010-00060

Dear Mr. McClanahan:

This is further to our 13 November 2009 response to your 7 October 2009 Freedom of Information Act (FOIA) request for copies of "**specific current Central Intelligence Agency ('CIA') Records Control Schedules for the government-wide OPM/GOVT-5 Privacy Act systems of records (Recruiting, Examining, and Placement Records) published in the Office of Personnel Management Systems of Records Notice ("SORN") at 71 Fed. Reg. 35,351 (June 19, 2006)."**

Following your recent calls to our FOIA staff, we took another look at our response to your request, and we realized that our 13 November 2009 response was erroneous. The information we located initially pertained to CIA records control schedules, but it did not pertain to the "government-wide OPM/GOVT-5 Privacy Act systems of records." CIA's Privacy Act systems of records are separate from the government-wide systems. Therefore, we must revise our final response as follows:

We processed your request in accordance with the FOIA, 5 U.S.C. § 552, as amended, and the CIA Information Act, 50 U.S.C. § 431, as amended. Our processing included a search for records as described in our 20 October 2009 acceptance letter existing through 7 January 2010.

We did not locate any records responsive to your request. Although our searches were thorough and diligent, and it is highly unlikely that repeating those searches would change the result, you nevertheless have the legal right to appeal the finding of no records responsive to your request. As the CIA Information and Privacy Coordinator, I am the CIA official responsible for this determination. You have the right to appeal this response to the Agency Release Panel, in my care, within 45 days from the date of this letter. Please include the basis of your appeal.

Sincerely,

Delores M. Nelson
Information and Privacy Coordinator
